VODAFONE 4G ROAMING NOW AVAILABLE IN MORE THAN 70 DESTINATIONS WORLDWIDE

Vodafone UK has added eight new worldwide destinations to its number of 4G roaming destinations. This means customers can use 4G for faster data speeds in 71 destinations – more than any other UK mobile provider. The new destinations include Dominican Republic, Hungary, Kenya, Morocco and UAE - perfect for those planning a getaway or that all important business trip this autumn.

GREAT VALUE WITH VODAFONE EUROTRAVELLER, WORLDTRAVELLER & BUSINESS TRAVELLER

Customers can also opt into **Vodafone EuroTraveller** or **Vodafone WorldTraveller** - whether on 4G or not – in more than 60 destinations across the world.

A customer can take their UK minutes, texts and data with them from just £3 extra a day. This means anyone on a Vodafone Red bundle - which includes unlimited calls and texts – can call or text home without worrying about unexpected bills. In addition, data usage costs the same abroad as it does at home. There's no charge to receive calls or texts and customers only pay for the days they use their device overseas.

For larger businesses, staying in touch and controlling costs whilst working abroad has never been easier. **Vodafone Business Traveller** offers worry-free roaming for customers on Business Freedom price plans. Business travellers pay the same as they do in the UK for their calls, texts and data from an extra £3 a day (exc VAT) when using their phone anywhere in Vodafone's Europe Zone or £6 a day (exc VAT) in top business destinations such as China, Hong Kong, Singapore and USA.

With more 4G destinations and great savings, what more could you ask? Full details on all Vodafone's offerings whilst travelling abroad is available at www.vodafone.co.uk/travelling
